GY401 Series

The representative elements for oriental ceramics are put into new designs of sanitary wares, to bring us real enjoyment and modern life, but not misunderstanding.

Romanticism grows into classicalism under designers' sharp eyesight, and the centuries-old culture grows into our taste and attitude towards life.

# 360° VORTEX FLUSHING SYSTEM

Half moon shaped flushing hole, with smoother and softer appearance lines and more aesthetic feeling.
Nine half moon diversion holes and one vortex water outlet are combined to form a complete vortex flushing system, which scours the inner wall of the toilet 360 ° to form a vortex to take away dirt, quickly generate siphon, strengthen impulse, and be more silent and water-saving.

Traditional flush rim has dead corner that is hard to reach or clean and is prompt to growth of bacteria; for your family hygiene, it is time to invest in a RIMLESS ROYAL KATIE toilet now.

Easy to clean. A clean and sparkling ceramic surface with one swipe.
